

SATURDAY, JUNE 6, 1857.

## Masonic Installation and Supper.

The installation of the officers of Summit City Lodge No. 170, F. & A. M., and Chapter No. 19, will be held on Tuesday evening next, June 9th, at 7 o'clock, in the Masonic Hall, 4th street of Stewart's new Building. A supper will be provided after the installation. All Masons in good standing and their families and all friends of the Order are respectfully invited.

## FESTIVAL.

The Ladies of the Wayne St. Social Circle will give a Festival at Colerick's Hall, on Friday evening, June 12th.

These ladies are famed for the taste and liberality with which they get up such affairs, and we therefore cordially recommend this Festival to the public patronage, in the full assurance that all who attend will enjoy a pleasant and agreeable evening's entertainment.

**Railroad Shipping Bills.**—We have just printed a lot of Railroad Shipping Bills and Receipts, of a very convenient form. Every business man who forwards goods by railroad, should furnish himself with a supply. We will sell them cheap.

## Gov. Wright Appointed Minister to Berlin.

Gov. Jos. A. Wright, who will be seen by telegraph in another column, has been appointed Minister to Berlin. This is an appointment eminently fit to be made, and Gov. Wright will discharge the duties with ability, prudence, and dignity. Indiana was justly entitled to such a mark of respect from the administration; and the appointment could not have been given to a man more generally acceptable to the democrats of the state, more deservedly popular, or who had done more to serve the democratic party than Gov. Wright.

We hope his friends will be satisfied now, and we may hear no more of the jealousy between him and Senator Bright. Those who have been so free to charge the latter gentleman with not having acted fairly in the matter of this appointment, must now see the groundlessness of their charges, and will if they are honest and sincere friends of the party, retract their charges and make the amende honorable to Mr. Bright.

**Kansas.**—Late accounts from Kansas state that a movement is on foot to induce the free state democrats to throw off the yoke sought to be imposed on them by the abolitionists, and exercise their right of suffrage in the approaching election for delegates to form the state constitution. If this be done Kansas will be a free state.

The Southern moderate Proslavery Democrats will, it is expected, finally join the Northern men and unite upon the "Brewster Non-Resist" viz:

That on and after the adoption of this Constitution, no slave or slaves shall be introduced or held as such within the limits of the State of Kansas, except those actually owned and held within the limits of said State by bona fide citizens of said State at the time of the adoption of this Constitution.

This proviso has been submitted to many of the leading Northern Democrats by its framer and entirely indorsed. If it be adopted it will set at rest forever the agitation of the slavery question in Kansas.

An active movement is making to organize the whole democracy, so that North and South will be equally represented in the Constitutional Convention. It is particularly proposed by the Northern Democrats to select conservative and moderate men to represent the Free State wing of the party. Should a similar course—as it is hoped and believed—be pursued by the Proslavery wing, it will produce a unanimous action and a highly satisfactory result.

No census returns were received from some of the counties, and consequently they are not included in the apportionment for Delegates to the convention. It is proposed to hold an informal election in those counties, but to hold the same as far as possible in accordance with the provisions of the law, to return delegates who will be voted for by, in many instances, a majority of Free State Democrats, and request their admission into the Constitutional Convention by a vote of that body, which, it is presumed, will be freely given.

This plan has been recommended by the acting Governor Stanton, in reply to applications made to him from some of the counties not included in the apportionment. There is no provision by law enabling the Governor to remedy the neglect of the census officers, but he presumes the Convention will have the power to admit such delegates as are elected according to legal form from those counties.

Gov. Walker has been favorably received in the territory, and expresses his determination to secure every man his legal rights, and enforce due observance of the laws. On the whole, we consider the present aspect of affairs in that hitherto distracted territory as decidedly favorable, and feel confident that the next Congress will admit Kansas into the Union as a free state.

Since the above was written, we have received a brief telegraphic notice of Gov. Walker's inaugural.

He recognizes the validity of the Territorial enactments, and says all Constitutional laws must be executed; urges all parties to participate in the election; believes the Convention will submit the Constitution to the people. In this case he thinks Congress will not reject it. Earnestly implores the necessity of removing slavery agitation from the halls of Congress and Presidential elections. Says slavery will ultimately be determined by the law of climate; it is this law that is now operating for or against slavery in Kansas.

In case slavery does not exist in Kansas, he has constitutional duties to perform to its sister States, especially Missouri. He trusts the Constitution will contain clauses forever securing that State all Constitutional guarantees, both by Federal and State authority, and the supremacy, within her own limits, of the authority of the Supreme Court of the United States. He says this question, decided peacefully, sees for Kansas a career of power, progress, and prosperity unsurpassed in the history of the world. Not so decided, fraud, violence, and injustice will reign, and history record the fact that Kansas was the grave of the American Union.

**Good for Logansport.**—At a special election held in Logansport on Monday last, S. A. Hall, Esq., Mayor of the Democratic Phreos, was elected Mayor, beating his fusion competitor, Bringham, of the Journal, 43 votes.

## Glorious Democratic Triumph in the Old Dominion!

At the State Election held in Virginia on the 28th ult. the democrats achieved a most glorious victory, and utterly routed their opponents, horse, foot, and dragons. The telegraph gave a few scattering returns, but, as usual, when the news is decidedly favorable to the democrats, it fails to bring later or more complete returns. The telegraph wires are not strong enough to bear such a load.

Richmond City, always hitherto the stronghold of the opposition, has given a democratic majority of 298! and the democratic majority in the state is probably larger than ever before given in that steadfast and unvarying democratic state. All the members of Congress! four-fifths of the Legislature!! and all the State Officers are Democrats!!! All honor to the gallant-democracy of Old Virginia!

**Opening of the Ohio & Mississippi Railroad.**—They are having a great celebration at Cincinnati and St. Louis in honor of the completion of the Ohio & Miss. R. R. between these two cities. Gen. Cass, Count Sartiges, the French minister, and thousands of other prominent men, are in attendance, and as far as we can judge from the glowing accounts in the Cincinnati papers, are having quite a good time of it.

We notice the Cincinnati Enquirer styles the line of railroad connections extending from Baltimore to this road, the great "American Central Railroad." This is stealing our thunder, and appropriating to themselves our good name. The American Central Railroad is the name adopted by the direct east and west line running from New York and Philadelphia, through New Jersey, Pennsylvania and Ohio, by way of Tiffin to this place, and thence west by the Fort Wayne, Western, Western Airline, and Phil. Fort Wayne, & Platte Valley Railroads to Council Bluffs, on the Missouri River. This line first adopted the name and ought to be allowed to keep it.

**The Episcopal Convention for the Diocese of Indiana** was in session in this city the present week. Bishop Upland and nearly all the clergy of the diocese and several lay members, were in attendance. As this church confines itself exclusively to religious matters, the business of the convention was speedily and pleasantly transacted, without any of that discord and wrangling which has become characteristic of similar convocations of other churches, where slavery, temperance, and other party questions in a great measure monopolize the attention, and destroy all Christian feeling among the members. The Episcopal Church, in this respect, sets a very high example, which others would do well to follow.

**Recaptured.**—John Campbell, one of the prisoners who escaped from our county jail last week, was caught on Wednesday morning last by the Sheriff, at the house of a relative in Pleasant Township, and is safely lodged in his old quarters. George Mansfield, another of the fugitives, was caught on Friday in Paulding Co., Ohio, on the line of the Tiffin R. R., but was rescued by a mob of railroad laborers.

The County Commissioners are now in session, and have appointed a committee to make a thorough examination of the jail, and adopt such measures as will render it safe.

**Masonic.**—The annual election of officers of Summit City Lodge, No. 170, F. & A. M., was held last evening at Masonic Hall, and resulted in the election of the following named gentlemen to serve for the ensuing year: Charles Case, W. M.; D. W. Mepley, S. W.; Wm T. Pratt, J. W.; E. L. Cluttencher, Sec.; F. S. Adaline, Tr.; W. J. Parker, S. D.; S. D. Bass, J. S.; D. Wm S. Smith, Tyler; A. G. Barnett and Jao N. Bass, Stewards.

There are few things more refreshing and palatable in warm weather than a dish of good Ice Cream. To get it in its full perfection just call at BARNETT'S, corner of Calhoun and Berry streets, and you will have the luxury served up in a style not to be excelled this side of New York. When the weather becomes warm—if it ever does—Barnett's Saloon will become one of the institutions of the city.

**A Good Arrangement.**—The Crawford Co. Forum, published at Bucyrus Ohio, announces that it will announce candidates who are subscribers for One Dollar, and those who are not subscribers will be charged Five Dollars. The Forum adds—"A Democrat who will not take his own county paper ought not to run for an office, unless he is willing to foot up a list."

This is the correct rule, and ought to be generally adopted.

**THE HOME ANGEL.** By L. B. Urbino. Wentworth & Co. Publishers, 86 Washington Street, Boston, Mass. Price \$1.00.

We have been favored with a copy of this handsome and well got up book, and have hastily run over a portion of it. It appears to be a tolerably well written story, rather of the Uncle Tom school, intended to pander to the mob's fanaticism so prevalent among our Yankee brethren and sisters, and paint the nigger family as a race of persecuted black angels. The heroine of the tale—the Home Angel, herself—is of African descent, and several other characters are introduced in various states of benightedness. The book is probably well calculated for the meridian of Boston, but we doubt it will meet many buyers or admirers in the free west.

By an advertisement in another column it will be seen that Agents are wanted to sell this work on commission.

## Senator Bright.

Twenty-three years ago, in the year 1834, Mr. Bright was elected Probate Judge of Jefferson county, a position of responsibility and the duties of which he discharged ably and satisfactorily.

In 1839 he was appointed U. S. Marshal for this State, by President Van Buren, which place he occupied for two years, until removed by Tyler. In the position Mr. Bright first gave public evidence of those fine business qualifications and energy of character which have since distinguished him. In 1841 he was elected State Senator in Jefferson county over a Whig majority of 1400.

In 1844 he was unanimously nominated as the Democratic candidate for Lieutenant Governor, with Whitcomb for Governor. In this campaign Mr. Bright made a gallant contest. A Whig majority of 14,000 was overcome and he was elected by the largest majority on the ticket. The result of this victory was the inauguration of that Democratic State policy which raised the State from bankruptcy and repudiation to her present prosperous condition. In 1844-5 Mr. Bright was elected United States Senator, receiving every Democratic vote in the Legislature with five Whigs. He took his seat as the youngest member of that body and was known to but a few of its members. During this time he so won upon the confidence and respect of the Senate, that he was placed upon two of the most important by the meeting

## Arrival of the Arabia.

New York, May 28. The steamship Arabia, with dates from Liverpool to the 16th inst., arrived off Sandy Hook this morning.

The steamer's advices reached Liverpool on the 18th inst. The United States steam-ship Niagara and the steamer Vanderbilt reached Liverpool on the 15th inst. Lord Palmerston had introduced a bill in Parliament to amend parliamentary oaths, omitting the words "on the faith of a true Christian," thus admitting Jews.

The Spanish armada had not yet left Cadiz. The Mexican Ambassador had had an interview, on the 14th inst., with the Spanish Minister on Foreign Affairs.

Spain will send a special envoy to China to secure a share of the commercial arrangements.

Espartero had resigned his seat. The Senator correspondence relates that the King of Spain has been discovered in a conspiracy to dethrone the Queen, and is threatened with trial for treason.

Russia is fitting out an expedition at Cronstadt to send with a special envoy to China.

A son has been born to the Emperor and Empress of Russia.

The Morning Post authoritatively contradicts the rumor of the intended resignation of Lord Palmerston, the Minister of War.

The Sardinian Government intends sending two vessels of war to China.

The Emperor and Empress of Austria had been recently received by the Hungarians at Pesth.

Lord Elgin has proceeded without delay from Alexandria to Suez, where he found a steamer awaiting to convey him to Singapore, where he would await the arrival of the French Commission.

By the overland mail dates from Hong-Kong to March 30 have been received. The news is unimportant.

The advices from Shanghai to March 20 denote the silk market active at Calcutta.

The steamship Vanderbilt made the trip from New York to Liverpool in ten days.

## Arrival of the New York.

New York, June 2. The steamship New York, from Glasgow, with dates to the 20th ultimo, arrived this morning.

She brings London papers to the afternoon of the 19th, which furnish the details of the advices brought by the Canadian.

The estimates, amounting to \$9,000,000, were carried in Parliament. In the Russian circles at Paris, it was maintained that the Shah of Persia would not and will not ratify the treaty of peace sent to him. Letters from Germany state that the Emperors of France and Russia meet some time this month, at Berlin.

The King of Bavaria had reached Fontainebleau, and was received by the Emperor.

The London Gazette contains an order of Council, announcing the contract of marriage between the Princess Royal and Frederick William, of Prussia.

The growing grain crops of France are magnificent. Wheat grain flour declining in nearly all the French markets.

The British steamer Hermet was destroyed by seventeen piratical junks, on the China coast.

The two native regiments which continued in India have been disbanded, without much trouble.

## Arrival of the Canadian.

QUEBEC, June 1. The Canadian steamship Canadian, from Liverpool at an early hour May 20th, has arrived at Riviere Du Loup en route for this port and Montreal.

**GRAT BRITAIN.**—The British news is of an unimportant character. No movements of interest had taken place in the Parliament.

FRANCE.—Paris letters report the discount market easy, with a better supply of money on the Bourse. Considerable specie was due at Paris from Russia. It is rumored that the Bank of France had made a new contract for a supply of gold.

SWITZERLAND.—The Neuchâtel difficulty has been finally settled, all the parties agreeing upon the terms.

SPAIN.—It is reported from Madrid, that an interview between the Mexican Ambassador and the Spanish Foreign Minister, the basis of an arrangement of the Mexican difficulty was made.

PERSIA.—The British Treaty of Peace with Persia was ratified at Teheran on the 20th of April.

CHINA AND INDIA.—Details of the previously telegraphed news are published. They are entirely confirmatory of the previous accounts and contain nothing new of importance.

Further operations have yet taken place at Canton.

The Liverpool Broadstreet Market is generally steady.

Wheat, cloth, firm, prices showing no change since the previous Friday.

Flour quiet, and no change.

Corn steady, and 4d higher.

The Liverpool Provision Market was dull, but the various articles offered were slow of sale, but prices unaltered.

The newspaper reports quote the London Produce Market generally unchanged.

Money generally unchanged. Consols for money 93 1/4 7-8.

## Three Days Later by the America.

HALIFAX, June 2. The Royal steamship America, with dates from Liverpool the 23d ult., arrived here this afternoon.

The Chancery produced a sensation in the House of Commons by a proposition of £40,000 do away and £8,000 annuity to the Princess Royal on her approaching marriage, referring to the precedents under the reigns of the Georges, second and third. It was finally without division.

The question of cotton supply was still agitated in Manchester. A deputation from Liverpool had waited upon the Cotton Supply Association.

LIVERPOOL, May 23. Wheat steady. Pork dull. Bacon quiet and declined 6d. Manchester specialties are unfavorable.

Messrs. Richardson, Spence & Co. quote Wheat advanced 2d. Red 8s. 6d. 9s. 4d. white 9s. 4d. 9s. 10d.

WASHINGTON, June 2. Washington Items.—Major McCullough has again emphatically declined the Governorship of Utah.

A selection will, however, positively be made in a few days, when the vacant judgeships for that Territory will be filled and other measures adopted, with a view to an effective organization of the Administration machinery.

The President has appointed J. A. Wright, of Indiana, as Minister to Berlin, vice Vroom, recalled. Henry C. Murphy, of New York, Minister to the Netherlands, vice Belmont, recalled. Nabors, of Iowa, recalled. William Thompson, of New York, Consul to Southampton, England, vice Crocker. Gabriel C. Flourit, of New York, Consul to Bordeaux, to fill the existing vacancy.

WASHINGTON, June 1. The Government has received no official account of the Ohio fugitive slave case. The Secretary of the Interior has replied to the U. S. Marshal by telegraph:

"Consult the district Attorney, and execute the law. The President expects you to do your duty and he will do his."

Major McCullough, who is here, has been again tendered the Governorship of Utah.

## Land Damages—Important Decision.

The following important decision was rendered in the Supreme Court of Indiana, May Term, 1856: Indiana Central Railroad Company vs. Hunter.

Suit against a railroad company for entering upon and constructing their road through the plaintiff's land. The complaint particularly alleges the nature and locality of the injury to be the running diagonally through the land, occupying about seven acres of it, and excavating and heaping up dirt upon it. On the trial, the plaintiffs were permitted to prove the cost of fencing the road through their land, and the amount of injury done to a crop of wheat growing thereon, by the construction of the road. Held, that this evidence should have been excluded, because the damages proved not result from the injuries specified in the complaint, nor from anything necessarily incident to them.

In a suit against a railroad company for injury to land the defendant will not be permitted to prove the value of the land, if referred to at all, to determine the benefits conferred upon the owner by the construction of the work, should be estimated at the time of such construction.

In the present case the defendant asked the following instruction, which the court refused: "In ascertaining the extent of the injury to the plaintiff's land, the value of the land at the time taken, at the time of the taking, is necessary; but, if the benefits resulting to the plaintiff by the construction of the railroad, equal in pecuniary value the value of the property taken by the defendant, it is a just and legal compensation for the property so taken." Held, that the instruction should have been given.

**The Condition of Ireland Improving.**—The New York Journal of Commerce, in an able article on this subject, says: Between starvation, pestilence and emigration, the population of Ireland decreased two millions out of eight millions between 1846 and 1851—when the last census was taken. The wholesale price of wheat and the demolition of their hovels in the south and west of Ireland, which caused such an outcry, and in which many instances were attended with lamentable cruelty and harshness, have proved in the end to be advantageous to those evicted and to the owners of the land.

There is great improvement now, which is traced to the Encumbered Estate Act, forcing the owners of real estate to sell in order to pay off incumbrances.

Thousands of estate have been sold under this law, and have passed into the hands of intelligent and wealthy farmers—men of enterprise and industry—and all parties concerned have profited by the change. With a population reduced full twenty-five percent, it is ascertained that the amount of labor done is upward of six per cent. greater than before the reduction.

There is a greater surface of land under cultivation. The jails and work-houses are comparatively empty. The dwellings of the laboring classes are clean, and of a superior description, glazed windows and slate roofs being now common, instead of the exception as formerly, and two shillings (half a dollar) with food are now the average wages paid to an ordinary farm laborer, to whom eight pence, without food, was the sum paid under the old system.

We are desired to announce the name of BENJAMIN SAUNDERS as a candidate for Justice of the Peace of Wayne Township.

## A RETIRED PHYSICIAN.

WASOS cases of life have nearly run out, discovered while in East India, a certain cure for Consumption, Asthma, Bronchitis, Coughs, Glands, and General Debility. The remedy was discovered by him when his only child, a daughter, was about to die. Having been so successful, as possible, he will send to such of his friends, as low as possible, this recipe, with full and explicit directions for making it up, and successfully using it. He requests each applicant to inclose a shilling—three cents to be returned post paid on the receipt, and the remainder to be applied to the payment of this advertisement.

**FEVER AND AGUE—AN INFALLIBLE CURE.**—We defy the world to produce any medicine which does not contain Quinine, Bark, Arsenic, Mercury or any noxious or deadly compound, to cure this annoying disease so effectually as Carter's Spanish Mixture. While it contains none of the above named dangerous articles, yet it possesses a power in relieving and curing Fever and Ague which cannot be approached by any of their preparatory combinations. It acts specially on the Liver, Purifies the Blood, opens the pores of the skin, and assists the nature to expel from the system the seeds of disease, or what is as bad, the remains of the Malarial Disease, which clog and finally destroy the system.

See the cure of Mr. Longden of Virginia: He had Chills twice a day for three years; nothing would relieve him until he tried Carter's Spanish Mixture. Twelve bottles of which he took, and he was cured, and he has had a return of the disease since.

**Great Cure after the Physicians had failed.** ROSSELVILLE, Ohio, Jan. 10, 1855.

Dr. C. M. Jackson—Dear Sir:—We would inform you that we are out of Hoofland's German Bitters, which meet with ready sale. One of our neighbors has been doctored for some time (we think about two years) with all the Doctors in the country, but all of no avail. He looked as much like a dead man going about, as anything we can compare him to.

With hard perspiration we prevailed on him to try your Bitters, with the promise to him it did no good, we would change him nothing for it, provided he would let us know the direction, which he has done, and is now entirely cured, and is as hale and as well a man. This cure has created a great sale in this neighborhood.

EDWARDS & BROWN.

As a spring or summer medicine we would recommend Dr. J. H. STEET'S celebrated Stomach Bitters above all others. It is strengthening and invigorating effect upon a debilitated system is truly astonishing. Its tonic action on the liver, its tendency to drive all humors to the surface, thereby cleansing the system from all impurities, is what has gained for these Bitters such an enviable reputation, inasmuch as they are pleasant to the taste even as a beverage, and are in general use by a family's medicine, wherever known. For sale by druggists and dealers generally.

**A PERFUMED BREATH.**—What lady or gentleman would remain under the curse of a disagreeable breath when by using the "BALM OF A THOUSAND FLOWERS" as a dentifice would not only render it sweet but leave the teeth white as alabastr? Many persons do not know their breath is bad, and the subject is so delicate their friends will never mention it. Pour a single drop of "BALM" on your tooth-brush and wash the teeth night and morning. A fifth cents bottle will last a year.

**A BEAUTIFUL COMPLEXION** may easily be acquired by using the "BALM OF A THOUSAND FLOWERS" as a dentifice.

It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseable hue. Wet a towel, pour on it three drops, and wash the face night and morning.

**SHAVING MADE EASY.**—Wet your shaving-brush in either warm or cold water, pour on two or three drops of "BALM OF A THOUSAND FLOWERS," rub the beard with it, and it will make a beautiful soft and much facilitating the operation of shaving. Price only Fifty cents.

For sale by all Druggists.

Beware of counterfeits.—None genuine unless signed by W. K. FETTERIDGE & Co., Franklin Square, N. York.

WASHINGTON, June 2. The Washington City Organ, which is the central mouth piece of Know Nothingism, is about giving up the ghost. Its editor announces his resolution to leave it, saying that he has lost heavily in its publication, and reflects severely on the brethren for not paying up better.

Indiana American.

An Austrian priest, M. graun, of the diocese of Passau has been excommunicated for refusing to read in his church the bull in severance to the Immaculate Conception. He has published a book, in which he boldly declares, with heresy all who have received the dogma, including the Pope. He states that thousands of priests, if they dared, would speak and act as he has done.

A number of families from Indiana, who have tried Kansas to their satisfaction, returned brought Lexington, Mo., last week, on route for the Hoosier State.

"How fortunate I am in meeting a rain-bear in this storm," said a young lady who was caught in a shower the other day to her beau of promise, who happened along with an umbrella. "And I," said he, gallantly, "am as much as the poor Laplander, when he caught the reindeer."

**DIED.**—In this city, on Thursday last, June 4th, in the 22d year of her age, Mrs. HENRIETTA BAYLESS, wife of Mr. M. W. Bayless.

Mrs. Bayless had for several years been the subject of ovarian disease. The sac or tumor that contained the dropsical effusion had reached such an enormous size as to occupy and distend the whole abdominal cavity; so much so as to encroach upon the lungs and seriously embarrass all the vital functions so that life had become a burden, and could not have been much longer protracted, in consequence of the rapidly increasing disease.

Many of the most eminent physicians and surgeons of our country had been consulted by the deceased. At the solicitation of the deceased, her husband, and friends, Dr. Dunlap, of Ripley, Ohio, consented, after explaining the serious character of the operation involved, to perform the operation, which he did on Wednesday the 3d inst., in the presence of and assisted by several of our resident physicians. We are informed that the operation was very carefully and skillfully performed. The tumor and its contents when removed weighed about 27 lbs. For several hours after the operation the patient seemed to be doing well and good hope for her recovery was entertained, but the sudden recurrence of the dropsical effusion into the cavity of the abdomen, accompanied by rapid and malignant inflammation, banished the fond hopes of her large circle of anxious friends, and death ensued about 4 o'clock on Thursday afternoon.

# DR. FALCON

Will this day enter into the general practice in addition to his former practice, to which prompt attention will be given to all calls in his profession.

**OFFICE CORNER OF CLINTON AND WAYNE STREETS,**  
(Near the Baptist Church).

**FORT WAYNE, IND.**  
DR. FALCON will here take the liberty to insert a few words relative to the CURE OF CANCERS, and a short statement on such success, as there are various opinions and much said on that subject. There are persons of the opinion that all that is necessary to cure Cancer is a recipe for a preparation to burn or eat them out. This is erroneous. Such treatment is no better than to cut them out, and this certainly the most illiterate person knows that cutting them out will seldom if ever, make radical cures.

Dr. F. gives assurance that the treatment which he uses for such Diseases, both internal and external, is his own discovery, and preparation. For a number of years past he has spent much time in studying and experimenting on this with many other diseases heretofore counted incurable. The internal medicine is as essential as the external, and must be given according as the case may be, as there are different species of Cancers, which nearly all have to be treated differently. Many cases originate from other diseases or disarrangement of the system, therefore it requires a Physician to understand the human system perfectly, and the treatment of all other diseases, in order to be successful.

The Causes and Diagnostics of this Disease would be here given, but are entirely too lengthy. By his successful treatment he has been enabled to cure a great many persons previous to locating in this city; the number cannot be correctly given, but during the short interval of a little over one year since he has settled in this city, he has cured about one hundred persons, as near as can be ascertained. They were not of this city and county alone, but from various distances, even as far as three or four hundred miles. The number failed on during his practice, up to this date, is but two or three persons, as far as can be learned.

## Dr. F. will insert Artificial Eyes,

without giving the least pain, and will look and move a perfectly as the Natural Eye. Persons who have unfortunately lost an eye will experience great comfort and advantage in having an Artificial Eye inserted.

### A Word to the Ladies:

In the treatment of FEMALE DISEASES, for past years, Dr. F. has seen the great necessity for a different constructed Pessary for the cure of Protruded Uteri, and during the past winter he has got one up according to his own notion, which is far superior to any thing of the kind known in either Hemisphere, for comfort and convenience it cannot be surpassed; even those confined to the bed, by the use of it, can immediately go about their daily employment with perfect ease. He will constantly keep a supply on hand, and can send them to any person in the United States by mail.—Fort Wayne, Ind., June 1, 1857.

POETRY.

Seasonable Lines.—We have a few lines here which we desire every diligent subscriber to have read—If he can keep the tears out of his eyes long enough to do so:—

Come, come, dear, in whose breast Some conscience may survive; Come with your sword in hand, and make this life a rest.

I'll seek my printer, though my debt I have him a mountain rose, I know his name, I'll pay him off, I'll give him my sword.

Perhaps he may take my cause— Perhaps he may take my cause— Perhaps he may take my cause—

But if I don't I'll pay, And then his thoughts will fly, Straggle into his sacred grove, And see him to the face.

I'll boldly "thou dost" that due, And thank him for his grace.

Although advanced this late to go, I am resolved to try, For I say as I know, In infancy I die.

I know his patient nature well, I know his patient nature well, I know his patient nature well,

And I know his patient nature well, And I know his patient nature well, And I know his patient nature well,

And I know his patient nature well, And I know his patient nature well, And I know his patient nature well,

And I know his patient nature well, And I know his patient nature well, And I know his patient nature well,

And I know his patient nature well, And I know his patient nature well, And I know his patient nature well,

And I know his patient nature well, And I know his patient nature well, And I know his patient nature well,

And I know his patient nature well, And I know his patient nature well, And I know his patient nature well,

And I know his patient nature well, And I know his patient nature well, And I know his patient nature well,

And I know his patient nature well, And I know his patient nature well, And I know his patient nature well,

And I know his patient nature well, And I know his patient nature well, And I know his patient nature well,

And I know his patient nature well, And I know his patient nature well, And I know his patient nature well,

And I know his patient nature well, And I know his patient nature well, And I know his patient nature well,
